

WORKSHOP:

“TOWARD A CIRCULAR OLIVE-OIL SUPPLY CHAIN: CHALLENGES AND OPPORTUNITIES”

December 2-3, 2021

Oliveti D'Italia S.C.P.A., Via Murge, 57, 76123 Andria (Italy)

The event is organized as part of the research project DRASTIC - *Driving the Italian Food System into a Circular Economy Model*, funded by MIUR (Ministry of Education, University and Research). The project addresses the challenges for the transition of the olive oil supply chain to circular economy paths in which waste is transformed into shared resources so that it is properly valued. This event is an opportunity to disseminate the first results of the project activities. Technical visits to some enterprises in the Apulian olive-oil sector are planned. The event will also be an opportunity to discuss and plan future activities planned by the project.
